

SCHOOL PROGRAMMES

Embarking On A Legendary Educational Journey

WELCOME TO AQUAVENTURE ACADEMY

Learning something new is always fun here at Aquaventure Academy! With education and awareness the main focus of the Atlantis Atlas Project, our new school programmes help nurture and develop a passion for protecting marine life and explain why the well-being of animals and the environment is essential for future generations. Young explorers with a keen interest in life underwater can connect with nature through our unique school programmes, which complement your school's curriculum and STEAM subjects.

ATLANTIS

ATLAS PROJECT

Atlantis Atlas Project is our commitment to do business in ways that are good for both people and planet. Atlantis Atlas Project brings together all our environmental and social sustainability initiatives, activations, and contributions whilst providing guest experiences which are more extraordinary than ever.

OUR CORE PILLARS

Responsible Operations

We seek and implement new ways to improve our operations to reduce our environmental impact

Conservation & Animal Welfare

We contribute to conservation and science to better understand and protect wildlife

Education & Awareness

We impart knowledge and skills and motivate people to become more socially and environmentally responsible

People & Culture

We empower our colleagues and support our communities to ensure wellbeing for all

OUR CONTRIBUTION

As part of our commitment, we contribute 1 USD for every marine animal experience participated in by a guest, into partnerships which drive conservation and sustainability projects that help to protect the ocean and our environment. Atlantis Atlas Project currently focuses on four key groups of wildlife; sharks, rays, dolphins and corals and two key threats to their existence in the wild; unsustainable seafood and plastic pollution.

ACCREDITATION AND MEMBERSHIPS

Home to 65,000 animals we are dedicated to exceeding the highest international gold standard of animal care and welfare. We were the first facility in the Middle East to become accredited by the Association of Zoos & Aquariums (AZA) which shows our commitment. We are also members of the World Association of Zoos & Aquariums (WAZA), the global alliance of regional associations and national federations dedicated to the care and conservation of animals and their habitats.

A child in a white t-shirt and checkered shorts stands in front of a large aquarium tank, looking up with arms raised. Inside the tank, a diver in a yellow and blue suit is upside down, surrounded by many fish, including a shark and a ray. The scene is set in a large, rocky underwater environment.

DIVE INTO OUR EXCITING SCHOOL PROGRAMMES

EARLY EXPLORERS PROGRAMME

Spark curiosity and ignite young minds with a fun-filled, hands-on learning adventure at the aquarium! Specially designed for young learners, this engaging programme blends guided exploration, interactive experiences, and play-based learning. Students will come face-to-fin with over 65,000 marine animals - from sharks and rays to shimmering sea jellies - while exploring colours, textures, shapes, and sizes. They will also enjoy an up-close encounter with coral reef creatures, fostering a positive, lifelong connection with the ocean world.

Ages 3 to 6

AED 55 per student

8am - 9am | 9am - 10am

Daily

1 hour

+ Maximum of 50 students (or 2 classes)

Foundational biology skills, listening, speaking, drawing and marine animals

Aquarium

The Educational Programme Includes:

- Entry to the aquarium
- Guided visit led by a Marine Educator
- Up-close encounter with ocean animals
- Educational workbook including a classroom and take-home project
- One printed complimentary professional photo per class, and a digital copy
- Complimentary return ticket voucher to the aquarium

MARINE CONSERVATION PROGRAMME

Dive into an immersive learning adventure at the aquarium with an exclusive Behind The Scenes Tour. Guided by our expert Marine Educators, students will get up-close with over 65,000 marine animals from diverse aquatic environments around the world. The tour includes the Fish Hospital, Shark and Ray Nursery, Food Preparation Room, and Aqua Lab, showcasing how we care for our animals. Students will also enjoy an up-close encounter with coral reef creatures, inspiring them to protect marine life and its habitats.

 Ages 6 to 14*

 AED 85 per student

 9am - 10:30am | 10:30pm - 12pm
12pm - 1:30pm

 Daily

 1.5 hours

 Maximum of 100 students (4 classes)

 Marine animals, marine environment, adaptation, reef ecosystems, species identification, conservation, role in ocean and human impact

 Aquarium

The Educational Programme Includes:

- Entry to the aquarium
- Guided visit led by a Marine Educator
- Exclusive access to the Fish Hospital and other animal care areas
- Up-close encounter with ocean animals
- Educational workbook including a classroom and take-home project
- One printed complimentary professional photo per class, and a digital copy
- Complimentary return ticket voucher to the aquarium

*Upon request, topics and content can be tailored to match the educational needs of the group.

ANIMAL CARE PROGRAMME

Students will be introduced to the fundamental basics and importance of animal care and conservation, beginning with an engaging Dolphin Discovery Presentation and followed by an exclusive Behind The Scenes Tour of our veterinary facility and marine mammal operations. Guided by our team of animal experts, this interactive and informative programme includes hands-on activities and a chance to learn about enrichment, training, and veterinary care. Additionally, they will develop a passion for protecting marine life and understand why the well-being of animals and the environment is crucial for future generations.

Ages 6 to 14*

AED 85 per student

9am - 10:30am | 1pm - 2:30pm

Daily

1.5 hours

Maximum of 30 students

Animal care, marine animals, marine environment, adaptation, conservation and human impact

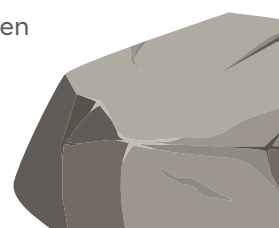

Atlas Village

The Educational Programme Includes:

- Classroom session introduction
- Exclusive Behind The Scenes Tour of Veterinary Laboratory and Fish Preparation Kitchen
- Educational workbook including a classroom and take-home project
- Complimentary return ticket voucher to the aquarium

*This programme can be delivered in three age groups to cater to children with varying levels of learning at different ages.

MARINE CAREERS PROGRAMME

Gain a unique insight into dream jobs and marine career options through an interactive onsite session led by our marine animal experts. During this programme, students will visit our marine animal operations and delve into the diverse world of job roles, including animal care and training, veterinary services, conservation, and education. By participating, students will gain the ability to identify the necessary educational qualifications and experiences required to pursue a successful marine career.
